Title: Homeopath, Hom

OHA Registration# 2015-06

College of Homeopaths Registration # 15142 | Full Class Registration

Carrier: _____ Insured _____ Policy# _____

I am seeking the services of a professional Homeopath registered with the College of Homeopaths of Ontario (CHO) and the Ontario Homeopathic Association (OHA). Standards have been set by this College and the Association whereby only qualified Homeopaths can become members, in order to ensure the public will receive safe, effective and professional care. This provides a guarantee of my practitioner’s credentials, ethics, and educational standards. On April 1st, 2015 it became mandatory that all Homeopaths go through the vigorous process of registering with the CHO which governs the Homeopathy Act that was passed in 2007 thus bringing Homeopathy into regulation under Ontario’s Regulated Health Professions Act (RHPA) and being recognized and acknowledged as its own distinct and specialized system of medicine. The successful completion of the registration process provides Ontario Homeopaths with official certification and a set of Standards and Guidelines to follow. The Ontario Homeopathic Association has been advised that most Benefit Carriers are now in the position to cover Homeopathy as part of the RHPA and some have already approved the additional registered profession such as Sun Life Financial and Great-West Life Assurance.

Homeopathy is an effective, gentle and complex system of medicine that is used worldwide. It is incorporated into the health care systems of many countries. It is recognized by the World Health Organization as the second fastest growing system of medicine globally. It has been proven effective in the treatment of acute and chronic disease, and can help reduce the need for expensive medications, can shorten illness recovery times and encourage a healthier lifestyle. Patients’ mental and emotional states can also be improved by reducing stress, improving sleep, and increasing energy and motivation. This translates to better job performance and fewer sick days. In short, supporting Homeopathy is cost effective to employers, insurance companies and the Canadian Health Care System.

Our family has been introduced to Homeopathy and fined that it is a safe and effective form of Medicine and request that our Health Insurance Coverage be adjusted to include homeopathy.
